By Kat in a hat I've lived the first half of my life in Bosnia and the second half in the U.S. and I find this small book to be a very good, concise guide to Bosnian culture, customs, and everyday life. If you live outside of Bosnia and are planning a trip there, or want to understand Bosnian people better, get this book. There are not many pictures and photographs in the book. More photos with captions could have enhanced the content of the book better. 1

By IzzyMy sister is heading off to Bosnia for a year abroad and I wanted to surprise her with a book to read on culture and customs while she's preparing. However, there were no books to be found solely on Bosnia except for this one! It has greatly exceeded my expectations in the material it has to share, if this is the only good travel book out there, it is definitely a sufficient representation of all the wonders Bosnia has in store for her!
