M. Fraundorfer : Brazil's Emerging Role in Global Governance: Health, Food Security and Bioenergy (International Political Economy Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Brazil's Emerging Role in Global Governance: Health, Food Security and Bioenergy

(International Political Economy Series):

The author examines Brazil's emerging role as an important actor in various sectors of global governance. By exploring how Brazil's exercise of power developed over the last decade in the sectors of health, food security and bioenergy, this book sheds light on the power strategies of an emerging country from the global south.

rdquo;Fraundorfer provides a comprehensive account of the central role played by the country in three different sectors: health, food security and bioenergy. ... The large contribution it makes towards a better understanding of the processes through which power is built in the international realm is undeniably impactful and the assessment about the importance of these three specific sectors is very enlightening. ... [T]his book is a remarkable and inspiring contribution to the debate on Brazil's emerging role in Global Governance, as well as a rich and detailed account on the discursive, organizational, and resource-based processes underscoring the country's new position in the international arena. ... This work stands out, therefore, as a mandatory reading for researchers and practitioners involved in global governance.rdquo; (Flaacute;via Donadelli, Fellow in Public Policy and Administration, London School of Economics)About the AuthorMarkus Fraundorfer is a Research Fellow at the University of Saacute;o Paulo, Brazil. He received his PhD from the University of Hamburg (GIGA German Institute of Global and Area Studies). He also holds an MA in International Politics from The University of Manchester, UK. He was a visiting research fellow at the Pontifical Catholic University of Rio de Janeiro (PUC-Rio) and the University of Brasilia (UnB). His current research focuses on the transformation processes in global governance, the possibilities to democratise global governance mechanisms and Brazil's political emergence in the international system.
