Born into a blue-collar family in the Jim Crow South, Herman J. Russell built a shoeshine business when he was 12 years old;and used the profits to buy a vacant lot where he built a duplex while he was still a teen. In the ensuing 50 years, Russell has continued to build and develop businesses, amassing one of the most influential and profitable minority-owned business conglomerates. In *Building Atlanta*, he shares his inspiring life story, revealing how he overcame racism, poverty, and a debilitating speech impediment to become one of the most successful African American entrepreneurs, Atlanta civic leaders, and unsung heroes of the civil rights movement. Not just a typical rags-to-riches story, Russell achieved his success through focus, planning, and humility and he shares his winning advice throughout. As a millionaire builder before the civil rights movement gained impetus and a friend of Dr. Martin Luther King Jr., Ralph Abernathy, and Andrew Young, he quietly helped finance the civil rights crusade, putting up bond for protestors and providing the funds that kept King's dream alive. Here he provides a wonderful, behind-the-scenes look at the role that the business community;which included black and white individuals working together;played in Atlanta's peaceful progression from the capital of the racially divided Old South to the financial center of the New South.

From BooklistRussell bought his first property at age 16 with funds saved from his shoe-shine business and skills in building construction he learned from his father. Income from the duplex paid for his college education. Born the last of eight children in a poor Georgia family, he rose to be a major builder and developer in Atlanta and a civic leader who helped elect Andrew Young, the first black congressman from the South since Reconstruction, and Maynard Jackson, the first black mayor of Atlanta. During the civil rights era, Russell worked behind the scenes with influential black clergy and businessmen, helped finance the black-owned newspaper, and provided bail money for those arrested for civil disobedience. As a businessman, he built homes for the newly emerging black middle class as racial restrictions were lifted, and he went on to desegregate the clubs, cliques, and boards of Atlanta's movers and shakers. Detailing a long career of setbacks and successes, Russell shares memories of growing up in Atlanta during challenging and pivotal times. --Vanessa Bush "Not many people alive in Atlanta today can look back and say they were involved with Dr. King, but Herman can do that. He's been an important person in the history of this city.";nbsp;nbsp;mdash;Arthur Blank, cofounder, the Home Depot; owner, Atlanta Falcons
