Gerhard Kristandl, Martin Quinn : Business Information Systems for Accounting Students before purchasing it in order to gauge whether or not it would be worth my time, and all praised Business Information Systems for Accounting Students:

Business Information Systems for Accounting Students offers a more practical approach than the typical accounting information systems textbook. The text covers the technical foundations of the topic, and provides a unique insight into what information systems and technology mean for accountants in today's business environment. Providing a contemporary education for undergraduate accounting students, Quinn and Kristandl offer a fresh perspective that is relevant to both UK and international students of computerised accounting, accounting information systems or accounting technology. Key features of the text include: Real life examples with QR codes for easy access on smart devices. Examples are drawn from

leading organizations such as Ryanair, Marks and Spencer, SAP and The World Bank. Coverage of
thenbsp;featuresnbsp;ofnbsp;selectednbsp;office, accounting and business software Mini-cases to show how
technology benefits businessnbsp;"Tracking the relationship between accounting and technology in an ever changing
world is no mean feat. Now, this book offers a comprehensive overview of technology- using many real-life
examples - to introduce why and how technology matters for today's accountant"Professor Niels Dechow,nbsp;EBS
Business School, Wiesbaden.nbsp;nbsp;
