Only read 20 x Pages and have had 3 x Massive Networking Learnings By Edward Zia I have been very lucky to personally know Stefan Thomas and I purchased the Kindle Version of Business Networking for Dummies a few days ago. I have flicked through it and picked up some great ideas and so far I have read only about 20 x pages intensely. I already have learned three massive things about Business

Networking, even though I am already a seasoned operator in helping run the 4Networking Australia Business Community. It's been amazing so far and I am on my Kindle App on my Samsung Galaxy S5 right now working through the rest. It's worth it so like totally buy it now :) 2 of 2 people found the following review helpful. Four Stars By Ryan S Horvath Good practical points. Look forward to putting them into practice! 1 of 1 people found the following review helpful. Networking made easy By PetI have had the pleasure to meet Stefan Thomas, after I bought his 1st book and I am now buying the books for our staff to increase sales and for friends and family who are in business who will greatly benefit from the sound advice because the book is easy to follow. Stefan's book has helped me personally as I avoided networking at every opportunity and just relied on advertising and word of mouth to build customer relationships. Now there is no where I do not network and I talk to everyone because it's so easy now. I understand Stefan is running courses on networking, which are exclusive in luxury venues with lunch and dinner included and a businessman, author and speaker a very inspirational leader.
