From Palgrave Macmillan : Environmental Taxes and Fiscal Reform (Central Issues in Contemporary Economic Theory and Policy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Environmental Taxes and Fiscal Reform (Central Issues in Contemporary Economic Theory and Policy):

A review of the literature on environmental taxes, focusing on European experiences, and analysing how such taxes can contribute to green causes as well as reducing the tax burden from "ordinary" taxation. The authors examine the potential 'double dividend' from tax reform for helping the environment, reducing unemployment and encouraging growth.

About the Author
LAURA CASTELLUCCI Full Professor of Economic Policy at the Faculty of Economics at the University of Rome Tor Vergata, Italy. She is Coordinator of the PhD program in Environmental Law Economics (DEA), Director of the Master program in Economics of Environmental Governance and Territory (MEGAT), (second level) and Director of the online Master program in Environment: Law and Economics (AED) (first level). She is also a member of the teaching board of the PhD program in Economics and Institutions. She has published in Italian academic journals and books.
ANIL MARKANDYA Director of the Basque Centre for Climate Change in the Basque Country, Spain, and Honorary Professor at the University of Bath, UK. He was a lead author for the 3rd and 4th International Panel for Climate Change, which was awarded a share of the Nobel Peace Prize in 2007. In 2008 he was nominated by Cambridge University as one of the top 50 contributors to thinking on sustainability in the world. In 2011 he was elected President of the European Association of Environmental and Resource Economics.
