**Michael Dauphinee : Identity: A Compass for the Adventure of Life** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Identity: A Compass for the Adventure of Life:

Identity is a personal development book challenging people to seek out unchanging guideposts for their life instead of the road maps of others. Using the metaphor of a compass, the author takes readers on a journey to discover their own

definitions of Identity, Permission, Courage and Generosity and limitless places this tool can take them. Immensely readable and accessible to average readers and business leaders alike, Identity is like a trusted travel guide for the adventure of life.
