**Francois Dubet : Injustice at Work (The Yale Cultural Sociology Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Injustice at Work (The Yale Cultural Sociology Series):

Though it is difficult to describe what a just world should be, everyone is able to denounce injustice when he/she is a victim or a witness of it. Based on a long-term study of workers, this new book tests and expands upon prevailing theories of justice by Rawls, Nozick, Taylor, Walzer, and other important philosophers. Injustice at Work describes the way workers perceive social injustice. It reveals why they so often feel unequal, scorned, dominated, and alienated

at work. The book develops three principles of justice—equality, merit, and autonomy—showing how individuals combine them in singular moral and social experiences that constitute people's relation to society. Dubet also shows, in a liberal and globalized society, why it has become more and more difficult to denounce the social causes of injustice and fight them.

About the Author  
François Dubet is a well-known French sociologist. After several books on social movements in France, Poland, and Chile, he published a landmark book on marginal suburban youth in 1986. He then turned to education, institutions, and finally to workers' experience of justice, all cast in the frame of his theories of the sociology of experience.
