**Tony Boczko : Introduction to Accounting Information Systems** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Introduction to Accounting Information Systems:

Introduction to Accounting Information Systems offers an introductory insight into the nature, role and context of accounting information systems. Students will gain an understanding of how companies can integrate technologies into their AIS and how this integration can assist in the management and control of organisational resources and the maximisation of shareholder wealth.

About the Author Tony Boczko is a lecturer in Accounting and Finance at the Hull University Business School. He has undertaken consultancies for a range of UK organisations, presented academic papers at national and international conferences and authored/co-authored texts on accounting, finance and accounting information systems.
