**From Palgrave Macmillan : Subterranean Politics in Europe** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Subterranean Politics in Europe:

The demonstrations and occupations that emerged across Europe in 2011-12 struck a chord in public opinion in a way that has not been true for many years. Based on research carried out across the continent, this volume investigates why this is occurring now and what they tell us about the future of the European project.

ldquo;The authorsrsquo; purpose with this book is to investigate and analyze the activities, demonstrations, and political initiatives taking place across Europe in 2011 and 2012. hellip; The audience for the book is mainly for academic researchers and theorists with an interest in democracy and civil society theory. It is also recommended for researchers using surveys, demographics, and statistics as methodological tools.rdqquo; (Christian Franklin Svensson, *International Journal of Voluntary and Nonprofit Organizations*, May, 2017)About the AuthorHelmut K. Anheier, Hertie School of Governance, Germany. Jordi Bonet Martiacute;, Pontificia Universidad Catoacute;lica de Valparaiacute;so, Chile. Sean Deel, LSE, UK.
