I am Guilty By Solomon Melesse Because words of encouragement and acts of service are important to me, I have, without giving it much thought, have used it as a form of recognition and appreciation liberally. The result is mixed appreciation for my leadership and management abilities. Results as a consequence of my appreciation tactics are also mixed w a some hits and misses.

The 5 Languages of Appreciation in the Workplace: Empowering Organizations by Encouraging People, by Gary Chapman and Paul White, applies the love language concept to the workplace. This book helps supervisors and managers effectively communicate appreciation and encouragement to their employees, resulting in higher levels of job satisfaction, healthier relationships between managers and employees, and decreased cases of burnout. Ideal for both the profit and non-profit sectors, the principles presented in this book have a proven history of success in businesses, schools, medical offices, churches, and industry. Each book contains an access code for the reader to take a comprehensive online MBA Inventory (Motivating By Appreciation) — a \$15 value. The inventory is designed to provide a clearer picture of an individual's primary language of appreciation and motivation as experienced in a work-related setting. This assists managers and supervisors in communicating effectively to their team members, and thus building a more positive and productive work environment.
