George J. Staubus : The Decision Usefulness Theory of Accounting: A Limited History (Routledge New Works in Accounting History) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Decision Usefulness Theory of Accounting: A Limited History (Routledge New Works in Accounting History):

This book ties together selected contributions by George Staubus to the early development of the decision-usefulness theory of financial accounting--the theory that has become generally accepted accounting theory in the last half of the

twentieth century and is the basis for the FASB's conceptual framework.
