His essays approach the subject matter with a chip on the shoulder--he's smarter than everyone else and assumes that this reader wants to know the details on how he reached every conclusion. 0 of 0 people found the following review helpful. Great Book By Tricia L VanVorce The author is very knowledgeable on the subject and writes in a fluid manner that is easy to read and understand - would love to take

one of his classes!

Deals with the encounters of Europeans and Indians in colonial North America. A blending of history and anthropology, the author draws on a wide variety of sources, including archaeological findings, linguistics, accounts of colonists, art, and published scholarship.

"A fine book."--Richard Ellis, Fort Lewis College  
"This important volume, covering the period 1600-1763, is the first in a trilogy which promises to provide a new and more sophisticated understanding of colonial ethno-history and Indian missions than we have ever had....Lively, informative, and convincing, this book explains how the Indians managed to sustain their ethnicity even when they adopted Christianity. Axtell is clearly one of our best ethnohistorians; this is a superb book."--Journal of American Academy of Religion  
"An intelligent, often innovative, and elegantly written work by a serious scholar who is quite intimate with the primary historical sources as well as the anthropological literature on the early Eastern Woodland peoples."--American Antiquity  
"Penetrating and lucid."--Francis Jennings, The Newberry Library Center for the History of the American Indian  
From the Back Cover  
Drawing on a wide variety of source, Axtell explores the cultural adjustments that occurred when white Europeans met and attempted to 'civilize' the native Americans.
